PROFESSIONAL SUMMARY

I am a top-performing software engineer and entrepreneur, well-versed in JavaScript technologies such as Node.js, React, Next.js, and TypeScript. I have extensive experience bridging the gap between business and technical departments, effectively translating business needs into technical requirements and analyzing the impact of changes as new solutions are implemented. A strong team player, I excel at communicating project progress to clients, fostering long-lasting business relationships, and ensuring successful outcomes.

RELEVANT SKILLS

EXPERIENCE

SELF EMPLOYED

Freelance Software Engineer | July 2024 - Present

GLOXAD ACADEMY

Freelance Software Engineer | Jan 2024 - June 2024

I worked remotely part-time with a team of Developers as a Front-End developer on www.gloxadacademy.com.

As a Frontend Developer at Gloxad Academy, I worked with a dynamic team committed to building an innovative e-learning platform from scratch. My responsibilities include:

- Designing and Implementing User Interfaces: Using React to develop responsive and intuitive user experiences.

My role was crucial in delivering a high-quality, scalable e-learning solution that meets the needs of both learners and educators.
